0 of 0 people found the following review helpful. A Must Have for Tile Makers and Collectors By Nancy I love this series of tile books by Norman Karlson. Very high quality photos and excellent backgrounds on every U.S. tile manufacturer from coast to coast. I have two of the four now, and can't wait to buy the ones for California and the SW/NW.

Over 4500 images appear in this beautiful and comprehensive, four-volume set. This massive compilation reveals the

great diversity and intrinsic beauty of art tiles produced across the length and breadth of the United States from the late nineteenth through the twentieth centuries. Tile installations of great beauty include panels, individual tiles, and inserts adorning building facades, interiors, furniture, and garden ornaments. These volumes explore the wildly varying themes and distinctive art styles of six regions of the nation. Among the 161 companies represented are A. E. Hull, American Encaustic, Brayton Laguna, California Art Tile, Catalina Pottery, Flint Faience, Gladding McBean, Grueby, Marblehead, Newcomb, Niloak, Pacific Clay Products, Rookwood, Saturday Evening Girls, and Weller. The text includes tile identification as well as valuable advice on collecting art tiles, a glossary, an index, and bibliography. This set is an essential reference for all who are fascinated with the ceramic arts.
