On the other hand - the set is worth the angst to collect.....

Published during the mid-70s, this 24 volume set is a comprehensive guide to a mind-boggling array of crafts. As one might expect, the crafts of those times are represented: macrame, string art, mosaics, sand painting, tie dye and terrariums all make an appearance. However, there's also a noteworthy collection of current mainstream crafts, such as knitting, crocheting and beading, as well as impressive coverage of more obscure topics.
